

CLEAR-COM FREESPEAK II

The Clear-Com FreeSpeak II™ system is available in two frequency ranges, 1.9GHz & 2.4GHz. Our package includes the base unit with two antennas for two active coverage areas and 5 belt packs, but can be expanded to meet the requirements for a larger productions.

WIRELESS INTERCOM SOLUTION

FreeSpeak II™ is the next generation distributed wireless solution that operates in license-free frequency bands: 1.9GHz and 2.4GHz. This high performance wireless intercom system is designed for extensive communication in large-scale operations. Its ability to maintain a strong and continuous wireless connection across an expansive coverage area while providing crystal-clear digital audio makes FreeSpeak II the ideal wireless roaming solution for live event, broadcast and sports production.
